Argues that native American writers should be included in the body of American literature

Arnold Krupat, one of the most original and respected critics working in Native American studies today, offers a clear and compelling set of reasons why red—Native American culture, history, and literature—should matter to Americans more than it has to date. Although there exists a growing body of criticism demonstrating the importance of Native American literature in its own right and in relation to other ethnic and minority literatures, Native materials still have not been accorded the full attention they require. Krupat argues that it is simply not possible to understand the ethical and intellectual heritage of the West without engaging America's treatment of its indigenous peoples and their extraordinary and resilient responses. Criticism of Native literature in its current development, Krupat suggests, operates from one of three critical perspectives against colonialism that he calls nationalism, indigenism, and cosmopolitanism. Nationalist critics are foremost concerned with tribal sovereignty, indigenist critics focus on non-Western modes of knowledge, and cosmopolitan critics wish to look elsewhere for comparative possibilities. Krupat persuasively contends that all three critical perspectives can work in a complementary rather than an oppositional fashion. A work marked by theoretical sophistication, wide learning, and social passion, *Red Matters* is a major contribution to the imperative effort of understanding the indigenous presence on the American continents.

Individualized Drug Therapy for Patients: Basic Foundations, Relevant Software and Clinical Applications focuses on quantitative approaches that maximize the precision with which dosage regimens of potentially toxic drugs can hit a desired therapeutic goal. This book highlights the best methods that enable individualized drug therapy and provides specific examples on how to incorporate these approaches using software that has been developed for this purpose. The book discusses where individualized therapy is currently and offers insights to the future. Edited by Roger Jelliffe, MD and Michael Neely, MD, renowned authorities in individualized drug therapy, and with chapters written by international experts, this book provides clinical pharmacologists, pharmacists, and physicians with a valuable and practical resource that takes drug therapy away from a memorized ritual to a thoughtful quantitative process aimed at optimizing therapy for each individual patient. Uses pharmacokinetic approaches as the tools with which therapy is individualized Provides examples using specific software that illustrate how best to apply these approaches and to make sense of the more sophisticated mathematical foundations upon which this book is based Incorporates clinical cases throughout to illustrate the real-world benefits of using these approaches Focuses on quantitative approaches that maximize the precision with which dosage regimens of potentially toxic drugs can hit a desired therapeutic goal

"[Krupat shows] that American Indian Literature is a field where all the intellectual issues, social values and questions . . . can be brought to bear."--Carter Revard, Washington University "Krupat . . . [brings] a remarkable range of scholarship to bear on his subjects. He knows the current literary criticism, the Indian literature, and the anthropology."--H. David Brumble, University of Pittsburgh

The third novel in the Sianim series from the #1 New York Times bestselling author of the Mercy Thompson series and the Alpha and Omega novels... When Rialla was young, slave traders from Darran ambushed her clan, killing all the men and enslaving the women and children. For years, Rialla lived in bondage, serving her master while waiting for a chance to escape. When that chance came, she made the best of it—and fled to the mercenary nation of Sianim... Now she can strike back at her former masters. A lord in Darran seeks to outlaw slavery—but there are plots to kill him before he can. Rialla is chosen by the spymaster of Sianim to prevent the murder—and is plunged into a world of deadly magic, where gods walk in human form. Where her most trusted companions are not what they claim. And where Rialla could be enslaved again...

Helen Crowder's small town world undergoes big time changes. After helping to solve Wallington, Georgia's first homicide in many years, Helen will have a busy autumn. Trouble arrives for son-in-law Justin as the newest police officer on the small Southern town force. CreateSpace uses it. Lulu.com uses it. So do AuthorHouse, iUniverse, Xlibris, and almost every other self publishing company in the U.S., Canada, and the U.K. What is it? Lightning Source, the printer and distributor at the heart of the "print on demand" industry. For the work those companies can't handle themselves, it's Lightning they most often depend on. So, why pay a middleman? In this follow-up to his groundbreaking book "Aiming at Amazon," Aaron Shepard explores how to double your profit by working directly with Lightning. If you're serious about making money with POD publishing, this book can show you the way. ////////////////////////////////////// Aaron Shepard is a foremost proponent of the new business of profitable self publishing through print on demand, which he has practiced and helped develop since 1998. Unlike most authorities on self publishing, he makes the bulk of his living from his self-published books -- not from consulting, speaking, freelance writing, or selling publishing services. In a parallel life, Aaron is an award-winning children's author with numerous books from publishers large and small.

//////////////////////////////////// "Aaron Shepard is the undisputed expert at earning profit from POD. Here are the step-by-step instructions for setting up your own publishing operation and optimizing the financial benefits. Following his steps, you will earn two or three times as much per book." -- Bruce Batchelor, author, "Book Marketing DeMystified," and founder and former CEO, Trafford Publishing "A graduate course and definitive guide for advanced POD publishing." -- Morris Rosenthal, author, "Print-on-Demand Book Publishing" "A tremendous amount of information that will benefit an author who self publishes not only through Lightning Source but by any other method." -- Kevin Sivils, author, "Self-Publishing with Amazon's CreateSpace" "Remarkably thorough and readable." -- Jonathan LeBlanc Roberts, Breton Bay Publishing "Invaluable advice for any small press or independent publishing firm." -- Max Scratchmann, Poison Pixie Publishing "Could not

be more timely or helpful. What a wealth of information . . . and not just what to do, but HOW." -- Malcolm Dell, Elbow Grease Publishing "Aaron Shepard is exceptional in his ability to keep up with the ever-changing minutiae of the world of self publishing via POD. I wouldn't want to publish without this book within reach." -- John Culleton, Wexford Press "Don't go into publishing without it." -- Grace Bridges, Splashdown Books "Another gold mine of information from Aaron Shepard. Absolutely required reading for any self publisher." -- Christy Pinheiro, author, "The Step-By-Step Guide to Self-Publishing for Profit " "Lots of valuable, easy-to-understand information. I will recommend this highly to my self-publishing clients as a reference for their many questions. Even after more than a decade in the business, I learned a few things from this book." -- Jamie Saloff, Saloff Enterprises "Indispensable if you are considering printing your book POD. Covers every aspect of the process in depth." -- Norma Lehmeier Hartie, Lingham Press

In Flannery O'Connor's hometown of Milledgeville, Georgia, reckless relationships lead to a tragedy that forever alters the town and the author herself. Crippled by lupus at twenty-five, celebrated author Flannery O'Connor was forced to leave New York City and return home to Andalusia, her family farm in Milledgeville, Georgia. Years later, as Flannery is finishing a novel and tending to her menagerie of peacocks, her mother drags her to the wedding of a family friend. Cookie Himmel embodies every facet of Southern womanhood that Flannery lacks: she is revered for her beauty and grace; she is at the helm of every ladies' organization in town; and she has returned from her time in Manhattan with a rich fiancé, Melvin Whiteson. Melvin has come to Milledgeville to begin a new chapter in his life, but it is

not until he meets Flannery that he starts to take a good hard look at the choices he has made. Despite the limitations of her disease, Flannery seems to be more alive than other people, and Melvin is drawn to her like a moth to a candle flame. Melvin is not the only person in Milledgeville who starts to feel that life is passing him by. Lona Waters, the dutiful wife of a local policeman, is hired by Cookie to help create a perfect home. As Lona spends her days sewing curtains, she is given an opportunity to remember what it feels like to be truly alive, and she seizes it with both hands. Heartbreakingly beautiful and inescapably human, these ordinary and extraordinary people chart their own courses through life. In the aftermath of one tragic afternoon, they are all forced to look at themselves and face up to Flannery's observation that "the truth does not change according to our ability to stomach it."
