PHP - Quick Guide - Tutorialspoint

Being new to PHP at the time this book came in great hand. I decided to buy the book format from Amazon. Not only to support the person who created this book, it is nice to read something off screen for a change and have something to hand. I use it everyday for reference and cannot highly recommend it enough. This is the best book i have ever owned.

PHP Book PDF | PHP Reference Book Blog

PHP stands for Hypertext Preprocessor. PHP is a very popular and widely-used open source server-side scripting language to write dynamically generated web pages. PHP was originally created by Rasmus Lerdorf in 1994. It was initially known as Personal Home Page.
