Drawing

An engineering drawing is a subcategory of technical drawings. The purpose is to convey all the information necessary for manufacturing a product or a part. Engineering drawings use standardised language and symbols. This makes understanding the drawings simple with little to no personal interpretation possibilities.

Unless you're a software engineer, or design exclusively in Verilog, technical drawings are what engineers produce. Drawings are the result and the output of your design labor. If the technical drawings aren't clear and complete, so that any technician can build from them without mistakes, then as an engineer you have produced a shoddy product.
