most luxurious destinations, resorts, spas and restaurants in Asia.

This book is a fully revised and updated second edition of the only comprehensive guide to the mammals of South-east Asia, one of the world's richest regions in terms of mammal diversity, where species new to science are still being described regularly, though there is increasing pressure on all of its wild mammal populations. From large mammals such as the elephant, big cats, dolphins and whales through bears, monkeys and badgers to bats, civets, rats and shrews, more than 550 species are described in detail, including key identification characteristics, habitat, behaviour, distribution and status, accompanied by line drawings of footprints and details of anatomy, or other aspects of identification. Beautiful colour plates depict nearly all species and their variations, while accompanying range maps provide up-to-date information on distribution. This field guide is essential for any naturalist or traveller visiting this special corner of Asia.

DK's highly regarded, eye-catching, and comprehensive cartography is presented in classic form in this fully updated geographic tome, the second edition of Complete Atlas of the World. All maps enjoy a full double-page spread, maximizing the space for geographic information. The continents are broken down into 330 carefully selected map areas reflecting a meaningful division of the modern world. A section on

## File Type PDF White Water Nepal 2nd

thought-provoking global topics and an index of 100,000 placenames support the core atlas. This atlas is has been structured into four sections. The first section is a world overview, containing a stimulating series of global thematic maps which explore Earth's place in the universe, its physical forms and processes, the living world, and the human condition. The second section comprises the main atlas, examined in a series of 330 maps, including more than 100 city plans. In section three, all 195 countries of the world are presented along with up-to-date geopolitical facts. In the fourth and final section, a clearly styled index of all 100,000 placenames is provided.

This guide to Nepal provides practical information on most aspects of travel, including health and safety advice, information on local cuisine, advice on customs and etiquette, historical and cultural information, maps, and more.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic

story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

White water safety and rescue for canoeists, kayakers and rafters. A completely revised new edition now in full colour throughout. You can find presentation resources of the photos and illustrations below. The writing of this book started when I tried to put some notes together as course notes for the safety and rescue courses I was running at Plas y Brenin. It soon became clear what a huge topic it is and in sheer frustration I explained to a friend that I would have to write a book to cover it properly. His answer was, "Why don't you?" This is the result. I hope you find it enjoyable and informative. What's new in the 2nd Edition? Full colour and new photos throughout. The text has been completely revised and numerous small but significant improvements have been made. The principles of safety and rescue have been unified and the mnemonic CLAP adopted. This is to make it easier to remember them and fall in line with current practice in the teaching of white water safety. The rescue section has been reorganized to fit in more closely with the TRTTG 'low to high risk' model. The rafting sections have been completely rewritten by Geraint Rowlands. The chapter 'Planning a Descent' has been extended to cover factors to be considered when travelling abroad. One-handed signals as used by Paul O'Sullivan in his chapter in the BCU Canoe and Kayak Handbook have been adopted.
